Contents of Volume 46

Number 1

Special Issue: Musical Instrument Acoustics

1 Guest Editorial

3 Designing a Guitar Family
GRAHAM CALDERSMITH (Australia)

19 Some Aspects of Tuning and Clean Intonation in Reed Instruments
J. P. DALMONT, B. GAZENGEL, J. GILBERT & J. KERGOMARD (France)

61 Documentation of the Sound of a Historical Pipe Organ
JUDIT ANGSTER (Germany) & ANDRÁS MIKLÓS (Hungary)

83 On the Tuning of Church and Carillon Bells
R. PERRIN, T. CHARNLEY & G. M. SWALLOWE (UK)

103 Practical Tuning of Xylophone Bars and Resonators
INGOLF BORK (Germany)

129 Calendar

Number 2

131 Study of Acoustic Transmission through Apertures in a Wall
KUO-TSAI CHEN (Taiwan)

153 An Adaptive Active Control of Sound Transmission through an Aperture at Low Frequencies
KUO-TSAI CHEN (Taiwan)

175 Active Control of Wave-Type Vibration Energy for Improved Structural Reliability
KWAKU O. PRAKAH-ASANTE & KEVIN C. CRAIG (USA)

197 Experimental Investigation of the Vibroacoustic Behavior of Structures for Validation Purposes
P. LABRECQUE, D. COUTURE & Y. CHAMPOUX (Canada)

211 Calendar

Number 3

Special Issue: Building Acoustics

213 Editorial

215 Sound Absorption in a Reverberation Room: Causes of Discrepancies on Measurement Results
A. COPS, J. VANHAECHT & K. LEPPENS (Belgium)

233 Structural Isolation of Walls Using Elastic Interlayers
ROBERT J. M. CRAIK & ALEXANDER G. OSIPOV (UK)

251 Angle-Dependent In-situ Measurements of Reflection Coefficients Using a Subtraction Technique
E. MOMMERTZ (Germany)

265 Application of the CEN Draft Building Acoustics Prediction Model to a Lightweight Double Leaf Construction
T. R. T. NIGHTINGALE (Canada)

285 Estimation of Vibration Attenuation through Junctions of Building Structures
D. B. PEDERSEN (Denmark)

307 Simplified Evaluation of Flanking Transmission Based on the Mean Mass and Mean Area of Flanking Elements
BARBARA SZUDROWICZ & ANNA IŻEWSKA (Poland)

321 Book Review

325 Calendar

Number 4

327 Vibrations of Rotating Thin Cylindrical Panels
C. T. LOY & K. Y. LAM (Singapore)

345 The Influence of Stiffness and Boundary Conditions of Thin Rectangular Plates on Radiated Acoustic Power
R. J. PANUSZKA (Poland)

363 A Live Evaluation of the RASTI-Method
C. DÍAZ & C. VELAZQUEZ (Spain)

373 Calendar
